## PROJECTS

### E-Waste Recycling and Awareness Platform Development
*Smart India Hackathon, 2023*
- Developed an interactive web app prototype using HTMl, CSS and JavaScript to educate users on e-waste impacts and locate nearby recycling facilities via geolocation.

### GitHub User Analytics and Engagement Optimization
*Course Project, IIT Madras*
- Used the Github API to scrape data of users with 50+ followers in Zurich, processing and storing it in specified file formats.
- Analyzed user data and activity to desire insights and provide actionable recommendations to enchance follower engagement.

## EXPERIENCE

### Web Developer Intern                                         June 2024
*Virtual Tech Services*
- Gained hands-on experience in web development by creating responsive and dynamic web pages using HTML, CSS, JavaScript, and SQL, while improving debugging and problem solving-skills.

## CERTIFICATIONS & LANGUAGE PROFICIENCY

- Foundation Level Certificate in Data Science, IIT Madras
- Oracle AI Vector Search Certified Professional
- **TOEFL ITP:** 607/677

## ACHIEVEMENTS

IIT Madras                                                      Margazhi'25
- 4th Place in XMarksTheSpot Event - An interactive Online Treasure Hunt challenging participants to decode clues across various digital platforms to uncover a hidden identity.
- Top 15 in CryptIQ Event - A competitive online challenge where teams solve riddle, logic puzzles, and hidden clues across encrypted files and website elements to advance through levels.

## POSITIONS OF RESPONSIBILITY

MystIQ                                                          CiSBoSium
- Planned and executed an immersive multi-layered puzzle hunt (online) event as part of the college symposium. Designed all challenges, managed event flow, coordinated participant queries, and ensured smooth delivery from start to finish.
